■ MERCHANT NEWS

Building/Construction/Home Repair Industry Fraud Alert:

A new scheme involving faxed, e-mailed, or operator assisted (hearing impaired relay) phone calls requesting a large quantity of expensive items including but not limited to rock/stone, tile, mulch, lumber, and flooring has been identified. The fraudulent customer may provide several, near identical credit card numbers, and may request to split the purchase amounts evenly over the cards. Variations of the scam include the involvement of a trucking or shipping company picking up of the merchandise, and/or a "customer" request for the merchant to wire money via MoneyGram or Western Union to the alleged shipper. Other scenarios include product(s) delivery to an open or vacant lot, out-

Code 10 Authorization for Risk Management

There are numerous risk management solutions that can help prevent fraud and unnecessary monetary loss for any business. In today's increasingly electronic business world, keeping credit card and customer information confidential is vital. Fraud can happen anywhere; whether you sell goods over the internet or phone, or have face-to-face transactions with your customers. "Code 10" is a simple way to detect suspicious activity just by answering a series of yes/no questions to verify the cardholder's information. By following a few simple tips and guidelines, you can manage your risks and detect fraudulent activity before it gets out of hand. To learn more about protecting your business, [click here](#).

Get started with MerchantConnect now! Accessing your account information online is fast and easy! Complete the information below, choose your User ID and click the Submit button. The system will verify the information you've entered against our records and display your temporary password.

You can immediately go back to the Home page, enter your logon information and you're up and running. It's that simple.

Please enter a valid email address as your password will be emailed to this address. Additionally, all password resets will be verified through this email address.

Code 10 Authorization for Risk Management

There are numerous risk management solutions that can help prevent fraud and unnecessary monetary loss for any business. In today's increasingly electronic business world, keeping credit card and customer information confidential is vital. Fraud can happen anywhere; whether you sell goods over the internet or phone, or have face-to-face transactions with your customers. "Code 10" is a simple way to detect suspicious activity just by answering a series of yes/no questions to verify the cardholder's information. By following a few simple tips and guidelines, you can manage your risks and detect fraudulent activity before it gets out of hand. To learn more about protecting your business, click here.

We understand that timely accounting information is a vital element of running your business. In this section you will find a variety of reports to help you better manage your electronic payment activity. Reports are available anytime in one convenient place.

Deposit Report

Expedite your accounting functions by reconciling our batch report against deposit entries in your business checking account. You can check your Deposit Report daily to find out how much money was deposited into your DDA account from each settled batch. You can even drill down by batch date to find a list of settled transactions by card type. The last 30 days of batches are kept on file for

- ▶ [View your deposit report.](#)

Monthly Statements

View your current statement, or any statement from the past 6 months. Your month-end statement provides a summary of your transaction and deposit activity, as well as an itemization of your monthly fees.

- ▶ [View your statements.](#)

Chargeback & Retrieval Reports

Review recent retrieval requests and avoid chargebacks caused by failure to provide copies of transaction receipts. If a request for a sales draft is on its way to you, it will be reflected in this report so you can get a head start on locating a copy of the draft.

- ▶ [View your retrievals.](#)
- ▶ [View your chargebacks.](#)

Non-Bankcard Reports

You can also find reporting for our value-added Electronic Gift Card and Electronic Check Service products. These reports are provided through separate systems and require separate logons.
